

Cleone Classic

Pure, clean water for your family

Forget about chlorine-tasting water or chemical and biological contaminants. Harnessing the power of reverse osmosis, the Bluewater Cleone™ is designed to be small in size but big on delivering cleaner, healthier water from the kitchen tap to your family.

Five Step Purification Process

1. Contaminated water enters the water delivery system via the inlet water.
2. Three Bluewater pre-filters (two sediment filters and one activated carbon filter) remove larger contaminants.
3. Bluewater's superior membrane removes the tiniest contaminants down to 0.0001 micron (that is 400 times smaller than the smallest virus).
4. Harmful contaminants are flushed out with the outlet water.
5. Bluewater helps ensure premium water pressure by storing the contaminant-free water in a tank, which is available in different sizes.

The Bluewater Cleone is ideal for households who have concerns about chlorine tasting water or want to remove chemical, biological and toxic metal contaminants. The water holding tank is available in multiple sizes to meet the needs of every household.

Benefits include:

- Can purify up to 200 liters/50 gallons of water a day
- 5 stage filtration with Reverse Osmosis performance
- Built to treat even highly polluted water
- Innovative leak protection system
- Automatic membrane flushing system
- Engineered for reliability
- Award-winning design
- WQA certified according to NSF/ANSI58

Innovated with love in Sweden

Not only is the delivered water of outstanding quality but so is every other aspect of Cleone. Unsurpassed quality of workmanship, the best materials, innovative and fully automatic technical features, reliability, safety and unique Scandinavian design all contribute to Bluewater's position as a world leader in the field of home water purification.

The Cleone also has an automatic membrane flushing system which prolongs the life of the membrane and improves the purified water quality. It also features a droplet-shaped indicator lamp to easily check when the unit is operating correctly.

Our Swedish engineering team has engineered the best possible electric-safety system and designed the first-ever home water purification leak protection system. Cleone means a lot more than just pure, clean water—it means convenience, safety and reliable ownership for many years to come.

Cleone Classic Product Specifications

Flow/day
50 gallons / 150 liters

Recovery
25%

Reverse Osmosis
Water Purification

Product Identifiers

Filter Media	Cleone Classic
Product code	Cleone Classic
Product number	91-134-0243

Purification Technology

Reverse Osmosis (RO)

Power

Voltage (V DC)	24
Power consumption (W)	23
(AC/DC Adapter) included	95-240V~ 50/60 Hz
Plug / type	American / A

Dimensions

Product dimensions (W x D x H)	215 x 380 x 416 mm 8.5 x 16.4 x 15.0 inch
Installation dimensions	215 x 420 x 416 mm 8.5 x 16.5 x 16.4 inch

Weight

Packaged weight	12.2 kg / 28.4 lbs
-----------------	--------------------

Prefiltration

20µ Sediment prefilter	
5µ Sediment prefilter	
Granulated Activated Carbon (GAC) prefilter	

Postfiltration

Granulated Activated Carbon (GAC) postfilter	
--	--

Water Tank

17 liter/4.5 US gallon, water tank is included	
--	--

Faucet

Faucet is included.	
Customized faucet may be suitable for RO-water.	

Features

Three stage prefiltration	Yes
System operation indicator	Yes
Water quality indicator	Yes
NSF certified RO-membrane	Yes
Integrated booster pump	Yes
Intelligent membrane flushing	Yes
Leak protection system	Yes
Positive automatic water shut-off	Yes
Installation kit	Yes
Compatible with household appliances	No

Requirements of Inlet Water

Pressure (psi)	17-102
TDS (mg/l)	<2000
Conductivity (µS/cm, 25°C)	<2600
Temperature	2-38° C / 35.6-100.4° F
Hardness (mg/l)	<200
Iron Fe(II) (mg/l)	<0.5
Iron Fe(III) (mg/l)	<0.3
Turbidity (FNU)	<1

Maintenance

Recommended frequency between membrane/filter change	
20µ Sediment prefilter	4-6 months
5µ Sediment prefilter	4-6 months
Granulated Activated Carbon prefilter	4-6 months
Granulated Activated Carbon postfilter	10-12 months
RO-membrane	3-5 years

Reduction Performance

Measured as membrane rejection of known pollutants	
Salt Rejection (TDS)	95.3%
Copper	>99%
Cyst	>99%
Fluoride	>98%
Lead	>99%
Nitrate	>98%
Nitrite	>97%
Turbidity	>99%

Bluewater is a world leading water purification company. Headquartered in Stockholm, Sweden, the company helps people and businesses in Europe, the USA, China and elsewhere in Asia enjoy the health and wellbeing benefits of cleaner, healthier tap water. Bluewater innovates, makes and sells compact water purifiers that harness the company's patented reverse osmosis technology to remove virtually all pollutants from tap water, including lead, bacteria, pesticides, medical residues, chlorine and lime-scale.
