

**FC-020**

Nominal Rating: 1 Micron  
 Flow Rate: 5 GPM  
 Type Removal: Fine  
 Color Code: Black  
 Case Quantity: 28 ea.  
 Dimensions: 9-3/4" x 2-3/4"

**FC-022**

Nominal Rating: 20 Micron  
 Flow Rate: 6 GPM  
 Type Removal: Moderate  
 Color Code: Blue  
 Case Quantity: 28 ea.  
 Dimensions: 9-3/4" x 2-3/4"

**FC-021**

Nominal Rating: 5 Micron  
 Flow Rate: 6 GPM  
 Type Removal: Standard  
 Color Code: White  
 Case Quantity: 28 ea.  
 Dimensions: 9-3/4" x 2-3/4"

**FC-023**

Nominal Rating: 50 Micron  
 Flow Rate: 8 GPM  
 Type Removal: Heavy  
 Color Code: Green  
 Case Quantity: 28 ea.  
 Dimensions: 9-3/4" x 2-3/4"

**FC-020-15**

Nominal Rating: 1 Micron  
 Flow Rate: 15 GPM  
 Type Removal: Fine  
 Color Code: Black  
 Case Quantity: 10 ea.  
 Dimensions: 9-3/4" x 4-1/2"

**FC-022-15**

Nominal Rating: 20 Micron  
 Flow Rate: 15 GPM  
 Type Removal: Moderate  
 Color Code: Blue  
 Case Quantity: 10 ea.  
 Dimensions: 9-3/4" x 4-1/2"

**FC-021-15**

Nominal Rating: 5 Micron  
 Flow Rate: 15 GPM  
 Type Removal: Standard  
 Color Code: White  
 Case Quantity: 10 ea.  
 Dimensions: 9-3/4" x 4-1/2"

**FC-023-15**

Nominal Rating: 50 Micron  
 Flow Rate: 15 GPM  
 Type Removal: Heavy  
 Color Code: Green  
 Case Quantity: 10 ea.  
 Dimensions: 9-3/4" x 4-1/2"

Pressure drop at 40 psi on a clean filter		
Item No.	GPM	Pressure Drop
FC-020	5	1.0 PSI
FC-021	6	.75 PSI
FC-022	6	.5 PSI
FC-023	8	.25 PSI
FC-020-15	15	3.5 PSI
FC-021-15	15	2.5 PSI
FC-022-15	15	1.5 PSI
FC-023-15	15	1.0 PSI

W.E.T.® sediment filter cartridges offer you more performance for your money.

These filters have large surface areas and unique fluted flow channels that resist compaction and flow loss under heavy dirt loading.

All W.E.T.® sediment filter cartridges are guaranteed cleanable and reusable when used on potable water.

- Constructed of a proprietary media consisting of a fixed matrix of cotton, and polyester fiber with thermosetting resin, for durability.
- The center core is made of high strength polypropylene and the end seals are composed of flexible plastisol.
- FDA-approved materials.
- Our 4-1/2" Dia. filters have 15 sq. ft. of filtering area.
- Our 2-3/4" Dia. filters have 5 sq. ft. of filtering area.
- Case weight 11 lbs.
